

- ✦ POINTS - MY BRAND ? Need to work on that 1st
- ✦ One point of view on the state of Cloud Computing as it related to IaC - if you are expecting a “what I have learned in my first year as a cloud engineer” which is the most indemand
- ✦ How infrastructure as code works (not the actual learning of how to do it but overall why and some of what is going on out there.
- ✦ Expected you have a basic knowledge of cloud computing and coding but not mandatory if you are seeking which could to start on.
- ✦ Whats new on AWS that is related to this?
- ✦ CDK Amplify - IAM role control
