

- ✦ Too much WHITE,
- ✦ Menu bar is hard to use(1 extra scroll click adds up and bulky)
- ✦ My Experience on GCP
- ✦ Expensive - lots of “Spinning” and the UI is not as much “gray background” as I think is needed (coming from a UI dev :))
- ✦ Cool holistic somewhat customizable dashboard approach makes it easier to manage 1 project at least it would seem like having billing overview right there on front page

Feedback English (US) ▼

The current EC2 Dashboard is being replaced by a new EC2 Dashboard.

We are replacing this Dashboard with a new Dashboard, which we will continue to improve based on your feedback.

[Let us know if this will affect you](#)

Resources

You are using the following Amazon EC2 resources in the US East (N. Virginia) region:

0 Running Instances

0 Dedicated Hosts

0 Volumes

0 Key Pairs

0 Placement Groups

Easily size, configure, and deploy Microsoft SQL Server on AWS using the AWS Launch Wizard for SQL Server. [Learn more](#)

Create Instance

To start using Amazon EC2 you will want to launch a virtual server, known as an Amazon EC2 instance.

[Launch Instance](#)

Note: Your instances will launch in the US East (N. Virginia) region.

Migrate a Machine

Use CloudEndure to simplify, expedite, and reduce the cost of large-scale migration of physical, virtual, and hybrid infrastructure to AWS.

[Get started with Migration](#)

0 Elastic IPs

0 Snapshots

0 Key Pairs

0 Placement Groups

Support ▼

Welcome to the new EC2 console!

We're redesigning the EC2 console to make it easier to use and improve performance. We'll release new screens periodically. We encourage you to try them and let us know where we can make improvements. To switch between the old console and the new console, use the New EC2 Experience toggle.
